## Welcome to 2020 Viewing!

2020 Viewing became the preferred platform to display a true image of any potential investment, the panoramic picture layout enables the potential customer to get an accurate and complete tour of a purchase before they decide if it is right for them.

2020 Viewing will cater for all aspects of pictorial advertising, property for sale or for rent, hotels, accommodation, food and drink, activities, interests ETC. We will capture everything the standard photograph will miss, this is 90% of the detail and surrounds.

2020 Viewing's package captures all of the surrounding detail into one moving image, the tour is interactive so the viewer can manipulate the image for closer detail. When viewing one can link directly to a specific supplier or one can make the enquiry on line to 2020 Viewing.
